Your airport transfer awaits to whisk you to Rio airport where you'll catch a morning flight to Iguazu. Here we'll drive you to the Brazilian side of the spectacular Iguazu Falls for an afternoon exploring this jaw dropping waterfall. Nearly 3km of cascading beauty creates a powerful scene of thundering water on the Brazil-Argentina border. Admire the sweeping views of this insanely picturesque waterfall, before we then take you across the border to Argentina. Here you can check into your hotel for the next 2 nights, ready for the Iguazu sequel tomorrow.

**Hotel:** La Aldea de la Selva Lodge, Puerto Iguazú

## DAY 2: GET UP CLOSE TO IGUAZU

Yesterday you saw the panoramic beauty of Iguazu, today you'll feel its power up close. The Argentinian side is closer to the action than the Brazilian side so have your waterproofs at the ready. Your hotel is just down the road from the entrance so make your own way there and spend the day exploring this amazing destination. Your national park ticket and taxi is not included but it is super easy to get this locally and this gives you flexibility to explore the endless miles of walking trails at your own leisure. Be sure to walk up to the Devil's Throat where you can stand above the falls and feel the full force of the water plunging below. You can also get down to water level for a sufficiently wet boat ride beneath the spray off the falls. Keep your eyes peeled for rainbows arching between the waterfalls as well as furry coatis along the trails. It's a day of natural wonders around every corner.
